DETAILED ACTION

Allowable Subject Matter

Claims 1-6, 8-22, 24-29 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious an amplifier system that has, in combination with other limitations, the power amplifier being a linear class type amplifier that operates as a constant class amplifier; neither does it have a digital system having a first output coupled to an input of the first DAC and a second output coupled to the input of the second DAC; nor does it have means for converting at least a portion of the input signal from the digital domain to the analog domain directly to a desired radio transmission frequency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T. Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on 703-309-4940. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
